CLS AMERICA, INC.

Brand New ... with 20 Years of Heritage

January 3rd 2006, Largo, Maryland – The CLS Group of Companies will enter its 20th Year of operations in the United States of America with a new look and a new way of doing business.

1986 - 2005:

2006 and beyond:

In 1986, Service Argos, Inc., was established near Washington, D.C., in order to provide operational services and end-user support for the joint French/USA Argos System. Argos is a satellite-based tracking and data collection system which employs a French electronics package flying aboard a number of U.S. NOAA polar orbiting weather satellites. In 1987, a second company – North American CLS, Inc. – was established in order to provide Argos-based services to a number of commercial users and non-environmental agencies throughout North America.

CLS and the Boards of Directors of Service Argos, Inc., and North American CLS, Inc., have elected to merge the two U.S.-based companies into a single unit, which will be known as **CLS America, Inc.** The single company will enable a stronger and more cost-effective support of all Argos applications, especially the U.S. governmental scientific users.

CLS America will continue to be based in the Washington, D.C., metropolitan area, with headquarters in Largo, Maryland. Mr. Bill Woodward, currently President of Service Argos, Inc., will become CLS America's Chief Executive Officer. Mr. Stephen Lee Morgan, CHS, currently President of North American CLS, Inc., will become the new company's Chief Operating Officer. Mr. Chris Adomanis, CPA, will serve as CLS America's Chief Financial Officer. Mr. Christophe Vassal, CEO of the CLS Group of Companies, will serve as Chairman of the Board of CLS America.
